

WORKFLOW DETAILS

STEP 7 Receive Parts

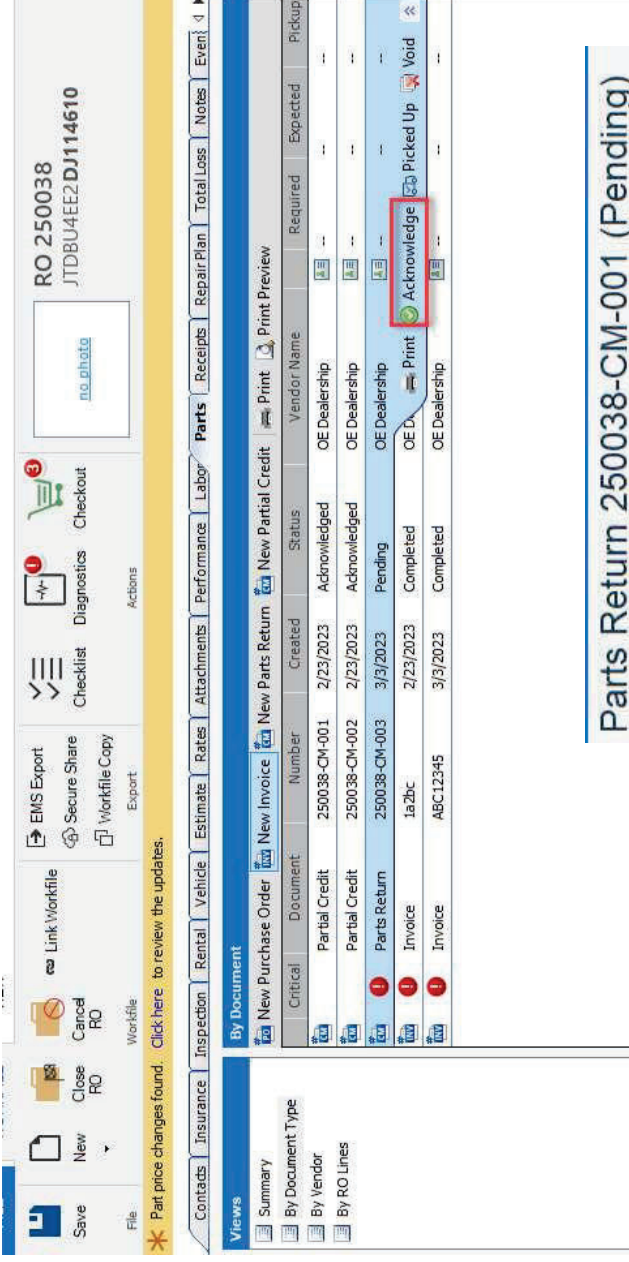

- Receive and mirror match parts and put note in CCC where parts are located
- Label and store parts
 - Keep/store boxes per vendor requirements
 - **No parts should be stored in cars**
 - Utilize part carts for part storage – labeled by RO
 - New parts on top
 - R&I on middle
 - Broken parts on bottom
 - Bin for small parts
- Dispatch parts to technicians
- Invoice parts
 - All part invoices will be entered and scanned into CCC the same day parts arrive
 - Posted Invoices will be stamped or otherwise marked Posted and filed into a Daily Invoices folder or basket
- ePO invoices
 - Review draft invoice folder for electronically ordered parts
 - Select edit to review electronic invoice before saving
 - Review for all orphan lines – See detailed job aid
- Completed daily invoice audits (must be completed at the end of each day)
 - Verify the following:
 - Correct vendor
 - Correct date
 - Correct payment type (COD/on account)
 - Correct invoice number
 - Accurate part numbers
 - Accurate pricing/invoice total
 - Escalate necessary corrections to parts dept before end of day to fix same day or first thing the following day
- Make all invoice corrections by end of day - Invoices are pulled at 8pm EST

PARTS CORRECTIONS (AC/EC)

AC/EC – Accounting Correction/Error Correction

Step 2 - Acknowledgment

- Find the return you just created and immediately acknowledge the return

Parts Return 250038-CM-001 (Pending)

Vendor Name: OE Dealership Return Date: 3/6/2023

Credit #: CMABC12345AC Credit Date: 03/06/2023

Part Number	Description	Type	Invoice Number
811-3012-F10	R-HL Pocket Assy w/blb	OEM	ABC12345

Comments Sent To Vendor:

- In the Credit# field, enter the invoice number with "CM" at the beginning and "AC" at the end, attach a copy of the PDF we printed in the previous step as an attachment
- Ensure the Credit Date is TODAY

PARTS CORRECTIONS (AC/EC)

AC/EC – Accounting Correction/Error Correction

Step 3 – Re-Invoice

- Immediately create a new invoice to the correct and original vendor (If the correction is due to the invoice or part being posted to the wrong RO, ensure you are creating the new invoice in the correct RO the part should be posted to)
- Enter the original invoice number and append "EC" to the end & ensure the invoice date is TODAY (This will help accounting identify that this is a correction)
- Properly check in the part or parts in question to their corresponding lines
- Ensure your costs are accurate (Note, you can review the return you created 2 steps ago to see what the total cost should be for reconciliation of any variance)

New Invoice
